

Oceana Diving (Ponta do Ouro)

Facility:

Oceana's aim is to put the pleasure back into diving, by making diving as effortless as possible. No gear to load! You & your equipment are transported to & from the beach, our staff washes your gear, fills your cylinders ready for the next dive. We have a fully equipped 8m rubber duck compliant with the Mozambican Maritime Safety Authority regulations. At Oceana we emphasize diving safety and our equipment is maintained to a high standard.

Oceana Diving is the only dive centre/school in Ponta do Ouro that is a DAN Safety Partner. We are a fully equipped PADI Dive Centre/School with Medical Facilities on the premises. A mere 50m walk from beach, we are situated at the base of Nsuty Lodge, overlooking the camp site and bay of Ponta do Ouro. As an owner managed facility, both Karl Prinsloo and Sandy Probert guarantee you the personal attention & professional service you deserve. Both qualified PADI Instructors with years of experience, we tailor make packages to suit your every need!

Environment & Social Responsibility:

We actively protect our coral reefs which sustain our fishlife by imposing a "No Touch, No Tease, No Steal" Policy amongst our divers whilst also supporting Sharklife by being a Shark Research Centre. Southern Mozambique protects its Bullsharks! As Ponta do Ouro is a Marine Protected Area, we adhere to and support the Mozambican Government's protection of our ocean, coastal areas and dunes!
